Foreword

The Statistical Yearbook Bangladesh is one of the most essential documents that help to formulate an effective and fruitful plan, policy and strategy. It is regarded as a unique tool that might substantially assist us in meeting emerging issues in several areas of socio-economic sectors. This publication would be helpful as a data source to monitor Sustainable Development Goals, 8th Five Year Plan, 2nd Perspective Plan, National Social Security Strategy and Bangladesh Delta Plan 2100 etc.

It is known to all that compiling a large publication like the Statistical Yearbook Bangladesh 2021 is a robust and time-consuming task. In spite of that, the Bangladesh Bureau of Statistics (BBS) has been able to produce this publication yearly. Surely, references and sources of data in this publication have made an opportunity for stakeholders to make a policy plan as well as project analysis. This yearbook contains a complete set of data in much detailed form which can be useful for enthusiastic researchers and planners.

My sincere thanks to the Director General and his colleagues at BBS for their tireless efforts in bringing out this publication. I would also like to convey my heartfelt gratitude to the officials of SID involved in the preparation of this book. I acknowledge the great contribution of the local bodies, government officials and officials of source agencies who have continuously helped BBS by providing data. I hope that they will continue the same cooperation in future.

However, I hope that this publication will turn out to be very useful to the public representatives, policy-makers, officials, planners, academicians, researchers, business communities, students and all other data users.

Dhaka June, 2022 Dr. Shahnaz Arefin, NDC

Director General Bangladesh Bureau of Statistics Statistics and Informatics Division (SID) Ministry of Planning Government of the People's Republic of Bangladesh

Preface

Bangladesh Statistical Yearbook 2021 is a compilation of important demographic, socio-economic, and environmental information that provides a comprehensive account of the trends, status, and progress of Bangladesh. It is a regular publication of the Bangladesh Bureau of Statistics (BBS) and the current edition of this publication is the 41st of its kind. It presents both cross-sectional and time series data as well as rates of change, ratios and distribution to facilitate comprehensive analysis. It gives an overview of the financial year 2020-21 as well as the calendar year 2021. It includes the compilation of quantitative benchmark data on various areas to monitor upper-middle-income status, as well as associated targets within the 8th Five Year Plan, Perspective Plan, Bangladesh Delta Plan 2100, and SDG evaluation framework.

The publication consists of 15 chapters with the latest available data on general features and environment, area, population and households, labor and employment, agriculture, industry, energy, transportation and communication, foreign trade, banking and insurances, price and wages, national income, education, health and family planning, consumption, household income and expenditure. This publication has been used as a standard document of statistics.

This publication is the compilation of data from secondary sources. One of the main issues is the availability of data in proper time from the sources. Sometimes, data are not found in the required format. As a result, the data need to be restructured to include in the publication. To enable the timely publication of this Yearbook, we enthusiastically solicit the cooperation of all relevant agencies and stakeholders.

My sincere thanks and gratitude go to the Secretary, Statistics and Informatics Division, for her excellent guidance and cooperation in completing the publication. I also would like to thank Director, National Accounting Wing, BBS, as well as the other officials who were involved to prepare the manuscript. The officials of SID and BBS as a member of different committees- the Publication Scrutiny Committee of SID and the Editors Forum of BBS deserve special thanks for their technical integrity and efforts to improve this publication.

Suggestions and comments on this publication would be highly appreciated.

Dhaka June 2022 Mohammad Tajul Islam
